

## AGO Data Release Conditions

### Scope:

1. These release conditions apply to the geospatial data supplied in accordance with the associated Australian Geospatial-Intelligence Organisation (AGO) task or request for information (RFI).

### Permitted Use:

2. For Official Use Only – this data is to be used by Government with respect to the defence or national security of the Commonwealth of Australia.
3. The data may be provided to contractors for a specific project under an Australian Department of Defence contract.
4. Where approved by AGO, this data may be used for CoA official use, including emergency service humanitarian and government support purposes.

### Terms and Conditions of Use:

5. The data must be handled in accordance with its classification and handling caveats.
6. The data cannot be stored or used in a publicly accessible system domain and nor can it or any part of it be transferred via the internet.
7. The data cannot be disseminated to third parties who do not have a requirement to view the data for the purposes for which it has been provided without written authority from the Director of AGO.
8. The data cannot be duplicated, copied or otherwise reproduced for the purposes other than those permitted in these conditions.
9. On completion of the use of the data, any copy or product must be returned to the AGO or destroyed in a manner that prevents its reconstruction, and provide the AGO with written certification of such destruction.
10. The user is not permitted to commercialise the Dataset. No rights in ownership or licence in the data are acquired by the user and the user is not entitled to sell, sublicense or trade in the data.
11. Whilst every reasonable effort has been made to ensure that the data is accurate and timely, you acknowledge that its supply is not intended to constitute a commitment, representations or warranties by AGO.
